---

## Education

**The University of North Carolina at Charlotte** | December 2025

- Bachelor's of Science in Data Science with a concentration in Artificial Intelligence.

**Central Piedmont Community College** | August 2021-May 2022

- Data Science concentration in Artificial Intelligence. GPA of 3.5/4 .

## Certifications

- **IBM Data Analyst Professional Certificate** | November 2024
    - Gained proficiency in Excel, SQL, Python, Jupyter Notebooks, Power BI, and data visualization. Completed hands-on projects for real-world data analysis scenarios.
- 

## Work Experience

**Data Analyst Intern at 3D Systems** | May 2024 - August 2024

- Analyzed data and developed machine learning models using Python.
- Developed analytical dashboards using Power BI, Einstein Analytics, and Salesforce.
- Integrated over 10,000 data points between Oracle and Salesforce using Excel & SQL.

**App Developer Lab Facilitator at Central Piedmont Community College** | August 2024 – Present

- Teaching a weekly Introduction to Python college level course.
- Providing support to students across various computer courses from Intro to Computer Science to Data Structures.
- Grading tests on a tight schedule and delivering grades on time.

**Solar Consultant at AMPSmart** | May 2023 – September 2023

- Conducted in-person sales interactions directly to present products and services.
  - Adapted to customer preferences and needs for effective communication.
  - Exceeded sales targets by 150% with a results driven approach to sales endeavors.
- 

## Project Experience

### [S&P 500 Forecast 2025](#)

- Used Prophet, a machine learning model, to forecast the S&P 500's performance in 2025 with a Mean Absolute Percentage Error of only 0.09%.

### [Data Salary Prediction](#)

- Analyzed 5,000 data points using Python's Pandas and applied multilinear regression to predict salary.
- 

## Skills and Technical Proficiencies Summary

Python (Machine Learning and Data Analytics), can do a backflip, Data Scraping, PowerBI, Excel, Einstein, Salesforce, SQL, R, Java, Microsoft 365
